

The Developer

Kerjaya Prospek
Property Group

In 2009, a dynamic young leader set out to transform the construction industry. He crafted his plan, aligned his co-founders and established the Kerjaya Prospek Property Group (KPPG) (formerly known as Fututech Berhad, a public listed company that was on Bursa Malaysia since 1996). That man is Datuk Tee Eng Ho, now the Executive Chairman of KPPG.

The founders of KPPG have more than 20 years' construction experience in high-end property development with A-list clients such as EcoWorld, E&O (St Mary and Dua Residency), SP Setia, IOI Group, AP Land, UM Land, MRCB, BCB, Belle View Group, and ECH Development Sdn Bhd (The first Lumina development in Mont' Kiara).

Over the years, KPPG delivered several stellar projects within Klang Valley and Malacca, namely 222 Residency,

288 Residency, Viridian @ Cheras Idaman and 100 Residency - all of which were sold out and highly commended by the public. KPPG's defining moment came when its Malacca mixed development project - The Shore @ Malacca River won an award from Asia Property Award for the Best Commercial Landscape Architecture in 2015/2016. It captured the attention of China's Premier, Li KeQiang, who personally visited The Shore @ Malacca River on November 2015 with his delegates. It was a proud moment for the Group.

The founders of KPPG believe in upholding management excellence, strong corporate values, business dynamism, and keeping an unwavering vision to ensure that every product and service adheres to the highest standards and quality that the company could offer. This is the new vision set by builders of the humblest beginnings.

Architect

GDP

GDP's beliefs that their works are not confined to a singular architectural style but are expression of the diverse minds. They are committed to create innovative, workable solutions in response to unique characteristic of each project.

GDP's portfolio includes a variety of building types such as residential buildings, educational buildings, hospitals, universities, commercial developments, hotels and hospitality related projects, transportation buildings, government office buildings, corporate offices and mixed-use developments. We have also been involved in refurbishment and renovation projects. Their works can be found across Malaysia, as well as overseas.

Interior Design

A&A

From its humble beginnings in 1997 to its status as an award-winning firm, A&A Concept Design & Contract Sdn Bhd (A&A) is the standard for distinct luxury in interior design. Aside from being a licenced interior design company under Malaysia's Ministry of Finance, A&A is also registered under CIDB and a practising contractor in the design and build industry.

The clientele of A&A ranges from the corporate and commercial sectors to the personal spaces of end users, and the company strives to meet, if not exceed, every client expectation. As a leading design firm that places importance on minimising the impact of material selections and design choices on the environment, A&A creates responsible interiors that merge both beauty and function in a space.

Spanning over two decades, A&A has steadily gained recognition for its unique design style and has won multiple awards, including the REKA International Design Award, the MIIP Interior Industry Award, the Asia Pacific Property Interior Design Award, MFID, and IIDA. The dedicated team at A&A upholds its five tenets of improvement in design: improving your business, improving your image, improving your wellness, improving your relationships, and improving your life.

Guided by its cornerstone philosophy of "discover, design, and deliver," A&A aims to set a positive example for the interior design industry as a firm that influences and inspires the community for the better through its thought process and design creativity.

Landscape

SD2

Incorporated in 2008 by Ng Sek San, Ong Pay Chee and Lee Wern Ching, SD2 retains important core characteristics of Seksan Design and operation approach that limits the amount of projects undertaken to ensure the quality of work delivered.

a project by identifying and respecting the genius loci of its site. To us there is always a time and place for any design solution. It is the physical context that matters and beyond it there is still a cultural context we must consider.

The works completed by SD2 are mostly townships, residential, parks and commercial developments. Each project is unique in its own ways although consistently executed through our core belief in designing for the local Malaysian context, working with local materials and with good understanding of our building industry and work culture. We often start

Our landscape spaces are curated by working closely with the Architects and the Clients. Our goal is to enhance the overall meaning and aesthetics of the development while taking into consideration practical technical requirements. We are unapologetic in experimenting new ideas for every project we do and have managed to strike a balance in creating unique work without compromising our core beliefs and design tradition.

Your dining options are limitless, catering to palates and offers a world of choice for foodies.

5.00pm

Hike up the Bukit Kiara trail.

7.30pm

BBQ dinner with friends.

Curating views to nature and garden

There is a deliberate ambiguity in the design between the building and the landscape. Each inspires the other.

From the entrance pathway, the space is an inviting open communal lobby, with material and colour palette to connect to the surrounding landscape.
